

PROJECT CHARTER	
<b>Project Name</b>	EventBuds
<b>Date Produced</b>	3-10-2022
<b>Project Goals</b>	Developing cross platform Event Planning and Management mobile application using react native, which allows collaboration of multiple helpers to complete the event tasks.
<b>Project Objectives</b>	Event hosts can choose to host a public or a private event and the guests can take up responsibilities and tasks to help with the event being successful.
<b>Project Budget</b>	\$300 AWS initial free tier subscription
<b>Project Sponsor</b>	Dr Tim Maciag, Professor ENSE400/477 Dr Craig Gelowitz, Mentor ENSE 400/477
<b>Project Manager</b>	Alish Kadiwal (Team lead, Full stack Developer, 5th year UofR SSE)
<b>Additional Key Project Stakeholders</b>	
Alish Kadiwal (Team lead, Full stack Developer, 5th year UofR SSE), Ria Chevli (Full stack Developer, 5th year UofR SSE)	
<b>Golden Circle</b>	
<p>Why- To bring to market an application with enhanced features like contributing to an event with role of a host/guest, viewing public/private events etc.</p> <p>How- Easily accessible on all the devices.</p> <p>What-Building an event planning and management application for mobile devices and web app.</p>	
Overall Project Milestones	Dates
Vlog 2 <ul style="list-style-type: none"> <li>Current status</li> <li>Confidence on current progress level</li> <li>Any impediment to success</li> <li>Any assistance required for next steps</li> <li>Questions or concerns</li> </ul>	25-10-2022
Vlog 3	06-12-2023
MVP1 <ul style="list-style-type: none"> <li>Create event (form)</li> <li>Open event and edit events and tasks</li> <li>User management homepage</li> </ul>	15-11-2022

<ul style="list-style-type: none"> <li>• Add friends page and manage friends</li> <li>• Home page for viewing private and public event</li> </ul>	
MVP 2	10-03-2023
<ul style="list-style-type: none"> <li>• Add user to task</li> <li>• Add login and registration page</li> <li>• Authentication using firebase</li> <li>• Ensure connectivity and product testing</li> <li>• Connecting API to firebase cloud storage</li> <li>• Product hosting an android playstore and web application</li> <li>• Final testing and documentation</li> </ul>	
<b>Overall Project Risks</b>	
<ul style="list-style-type: none"> <li>• Scope may be a little wide for the MVP expectations</li> <li>• Learning new tools like react native, configuring google database and general learning curve may be noticeable and can set us back</li> </ul>
